| 1   | Akash kudla             | Social enterprise | Urban gardening                    | Develop compost and other alternatives to address the Problem causing on humans health and environment due to heavy usage of chemical fertilizers, pesticides,herbicides Wedecides in gardening .   | <a href="https://solveninja.org/user-profile/akash-kudla-6cdk30">solveninja.org/user-profile/akash-kudla-6cdk30</a>                   |
| 2   | Arbaj                   | Yuva cabinet      | Waste management                   | Transform the ten black spots in his village, and work with the the panchayat to establish waste collection system in the village   | <a href="https://solveninja.org/user-profile/arbaj-b2f2t1">solveninja.org/user-profile/arbaj-b2f2t1</a>                               |
| 3   | Avinash                 | NGO               | Waste management                   | Inadequate accessibility to portable drinking water and clean toilets to the paarakarmikas of Bengaluru have led to various health issues. There have been various protests against the government to provide basic necessities to these people.<br><br>The issue of health is very broad in nature. Lack of one facility acts as a cause for another issue. As the constitution enshrines the right to dignity of life, it is crucial for these people to lead a safe and adequate livelihood  | <a href="https://solveninja.org/user-profile/avinash-0v9cs5">solveninja.org/user-profile/avinash-0v9cs5</a>                           |
| 4   | Farzan                  | Yuva cabinet      | Waste management                   | There is a severe lack of waste management in the Bapujinagar area. The residents routinely dump in-segregated waste in public spaces. The people in the area are primarily migrant workers who do not have time to segregate their waste and are not at home during waste collection time. The areas where the dumping occurs becomes a black spot with mosquitos and open burning of dry waste, sometimes even blocking the road.   | <a href="https://solveninja.org/user-profile/mohammedfarzan">solveninja.org/user-profile/mohammedfarzan</a>                           |
| 5   | Jotsimran               | Yuva cabinet      | Road safety                        | There is a problem of potholes in amritsar. This is mainly caused when construction held, then the site is not required properly or the material is of poor quality. The problem is observed in area where there is more traffic, like bus stand area. Darbar sahib area. Public is facing the problem and these potholes start causing accidents.  | <a href="https://solveninja.org/user-profile/jotsimran_kaur">solveninja.org/user-profile/jotsimran_kaur</a>                           |
| 6   | Kuppendra               | NGO               | Schemes                            | A lot of laborers migrate from different districts of Karnataka and work in Bangalore. There are many schemes under the Karnataka Building and other Building Workers Welfare Fund for those who have a Labor Identity Card. But the facilities are not reaching the workers adequately and many workers do not have a labor identity card.   | <a href="https://solveninja.org/user-profile/kuppendra-kihvbn">solveninja.org/user-profile/kuppendra-kihvbn</a>                       |
| 7   | Lavanya                 | Social enterprise | Sustainable Fashion                | Working on creating usable products of textile waste as it major generator of waste in landfills  | <a href="https://solveninja.org/user-profile/lavanya-3f1zik">solveninja.org/user-profile/lavanya-3f1zik</a>                           |
| 8   | Manasa S                | Social enterprise | Waste management                   | The students of 5th to 9th grade around Mysore Road incorrectly segregate waste and do not dispose of it due to lack of awareness, which results in students lacking a sense of responsibility towards the environment, causing recycling difficulties.   | <a href="https://solveninja.org/user-profile/manasa-s-si8ohv">solveninja.org/user-profile/manasa-s-si8ohv</a>                         |
| 9   | Manasi Ganesh Nalage    | NGO               | Waste management                   | In my village, Malegaon right from my childhood villagers and workers from sugar factory throw mixed waste and empty plastic bottles due to a lack of awareness on the segregation of waste and how to reuse it which is leading to a huge accumulation of waste on the land causing the soil to get polluted, mosquito breeding and health issues like Dengue and Malaria.   | <a href="https://solveninja.org/user-profile/manasi-ganeshnalage-iti2dr">solveninja.org/user-profile/manasi-ganeshnalage-iti2dr</a>   |
| 10  | Mehak Jain              | Social enterprise | Organic composting (Stubble reuse) | The environmental degradation caused by use of chemical fertilisers and prominent practice of burning stubble in Punjab region<br><br>The increasing overuse of chemical fertilisers is leading to declining quality of soil, adverse health impact, water pollution and air pollution. Currently, one-third of global soils are currently facing moderate to extreme degradation.<br><br>On the other hand, it is common practice for farmers to burn stubble which is a major cause of increasing air pollution in the Delhi-NCR region. About 42,000 incidents of stubble burning were recorded in Punjab alone between September and November 2021. | <a href="https://solveninja.org/user-profile/mehak-jain-mxum5m">solveninja.org/user-profile/mehak-jain-mxum5m</a>                     |
| 11  | Muskan Mohd Raja Shaikh | Yuva cabinet      | Sanitation                         | In my locality there are women's public toilets which were built by BMC authorities. Women and girls are facing issues using unclean and unhygienic toilets as there is proper maintenance. Used pads are kept in the toilet window or else thrown in the toilet. There is no dustbin provided in every toilet to throw the used pads into it as not proper waste management in public toilets.<br><br>As it is pay and used public toilets coupons are not provided to rented home people, it is given to own home people in the locality, rented people by force have to pay and use public toilets because coupons are not available for them.       | <a href="https://solveninja.org/user-profile/muskanmohd-raishaikh-wgqsr1">solveninja.org/user-profile/muskanmohd-raishaikh-wgqsr1</a> |
| 12  | Nandani kumari          | NGO               | Citizen engagement- Media          | In Patna, Bihar there are many individuals working on civic and environmental problems. There are 4-5 youngsters in my area who can benefit from their journey being shared with a wide audience for awareness. The solutions and efforts made by these people should be documented to allow others across India to read/listen/watch and take inspiration or find a roadmap to solve problems in their own area.   | <a href="https://solveninja.org/user-profile/nandani-kumari-ivfikt">solveninja.org/user-profile/nandani-kumari-ivfikt</a>             |
| 13  | Puja                    | NGO               | Menstruation                       | Girls from Government colleges in Govandi and Mankhurd aged 14-35 years are unaware that non-sustainable pads should not be used due to lack of awareness about the harm it causes such as menstrual health like skin rashes infections and also pollution which results in the pad being on earth for over 300 years.  |   |
| 14  | Sadaf khanam            | NGO               | Menstruation                       | Low-income government school and college girls from age 14-24 in Ghatsila and near by area are unaware of environmental friendly menstrual products, and use non-sustainable , unaffordable sanitary pads and discard them improperly which cause many health problems like PCOD and which also cause harm to the environment as they stay on earth for more than 400-500 yrs.  | <a href="https://solveninja.org/user-profile/sadaf-khanam-3g4bvh">solveninja.org/user-profile/sadaf-khanam-3g4bvh</a>                 |
| 15  | Shwetha Shree R         | NGO               | Livelihood                         | Improper waste management of used clothes produced in households and walls of kindness in residential areas of Bangalore. These clothes to be converted into quilts by rural women entrepreneurs and be given to homeless people.   | <a href="https://solveninja.org/user-profile/shwetha-shree-r-dtxisf">solveninja.org/user-profile/shwetha-shree-r-dtxisf</a>           |
